A Resplendent And
Glorious
Range Of Designs

Elegance embedded in every design

It takes a bright and innovative idea to change almost everything in the world. Makers understands this belief and work on it day in day out to produce exceptional and classy laminates that not only protect your ambience and its beauty but also celebrate the saga of elegance and dynamic energy. Ajmer industries LLP conceived Makers in 2016 to break the set taboos and make decorative laminates an essential decor element that can elevate the glory of any space to do so with efficiency, we take care of each and every element that goes into their production. Our inclination towards quality has been recognised by authorities as our Pure Phenolic Products are ISI certified. Besides, we also adhere to the set norms of ISO 9001-2015 for quality, ISO 14001-2015 for the environment and ISO 18001 for the health and safety. Use of sound raw materials from China and Europe, state-of-the-art technology and implementation of innovative ideas help us in delivering excellent quality laminates that are at par with international standards.
