MAKERS®
DECORATIVE LAMINATES

an architect story

Inspired by the subtle beauty of natural stone and wood, we pioneered high-performance laminates that capture neutral palettes—soft beiges, warm greys, and creamy taupes—that architects adore for their versatility.

Over decades, we've evolved into the go-to choice for modern designs, powering iconic projects from serene office spaces to minimalist homes, always prioritizing durability, eco-friendly materials, and seamless finishes tha

Architects trust our neutral palette because it grounds bold designs in quiet sophistication, mimicking the understated luxury of marble veining or oak grains without the upkeep. Our collections offer matte textures and precise edge profiles that withstand high-traffic environments while harmonizing with any material. It's why leading firms specify us: we deliver the perfect canvas for creativity, proving that the most powerful statements often whisper.

“A refined neutral palette inspired by nature”
Bone, Fog, Smoke & Earth

OUR COLLECTION

WOOD

MARBLE

STONE

Ignite creativity through elegant, joyful patterns.

ABSTRACT

SOLID

Each texture ignites creativity,
transforming mundane
surfaces into bold statements
of style and sophistication.
Endless options await: wood
grains, stones, metals—craft
your vision with finishes that
captivate and endure.

10:10[®]

Fabulous appeal

TECHNICAL

Properties		IS Requirement As per IS 2046 Type S, VGS	MAKERS Conforms
Thickness		1.00mm+-0.10mm	✓
Surface Defects	A. Spots, Dirt, & Similar Surface defects B. Fibers, Hair, Scratches C. Accumulation of surface defects.	Max Contamination area equivalent to 1.0 mm 2/m2 Max Contamination Length of 10.0 mm /m2 Max. Level for each of the two type of defects shall not exceed half of the levels prescribed in 5.4.1.1 & 5.4.1.2	✓
Edge Defects		20 max	✓
Broken Corner		One Broken corners of < 30 mm Or two broken corners of < 15 mm allowed	✓
Sanding Defects		Slight chatter Marks are allow	✓
Warping		Max warp 120 mm	✓
Dimension	A. Length B. Width	+ 10 mm, - 0 mm + 10 mm, - 0 mm	✓
Straightness of Edge		1.5 mm/M²	✓
Squareness		1.5 mm/M²	✓
Resistance to Surface Wear Revolution (Min) Index No		Not Less than 150 (revolution)	✓
Resistance to Immersion in Boiling Water	A. Mass increase % Max Boiling Water B. Thickness increase % Max C. Appearance Grade not worse than	Not More than 12 Not More than 14 Not Less than 4	✓
Dimensional Stability at deviated Temp. (Max)	A. Length wise (L) % B. Cross Wise (T) %	Not more than 0.65 Not more than 1.15	✓
Resistance to Scratching, Index No		Not less than 2	✓
Resistance to Staining Grade not worse than	A. Group 1 & 2 B. Group 3 & 4	Not less than 5 Not less than 4	✓
Resistance to Steam (Appearance Grade not worse than)		Not less than 4	✓
Resistance to Impact by small dia ball (Min), Index No		Not less than 3	✓
Resistance to cracking (Appearance Grade not worse than)		Not less than 4	✓
Resistance to Colour change (Wool standards) -In Xenon arc light In enclosed carbon arc light		Not less than Standard Blue Wool No. 6	✓
Surface Finish and reverse side bonding		The reverse side of sheets having only one decorative surface shall be suitable for adhesive bonding if so required	✓

Size : 2440 mm x 1220 mm [8'x4']
Thicknesses: 1.00 mm (other thickness available on request)

Notes

- All tests may not be valid for metallic and gloss laminates.
- Samples pasted, represent only color, pattern and finish and not actual thickness.
- There may be slight variation in shades in batch to batch, particularly in metallic designs.
- Bonding of laminates under high humidity, plywood with high moisture content, ply with uneven surface, inferior quality adhesive and insufficient pressure may lead to delamination / air bubbles in between ply and laminate.
- MAKERS are used for various applications, without the possibility of control over the manufacturing of the finished products, the company does not assume obligations or liabilities arising from the furnishing, sale, installation or repair, use or subsequent sale of any product, to any person or entity.
- MAKERS warrants that its products are reasonably free from manufacturing defects. The products when properly used, will comply, with normal deviations, related to manufacturing specifications. This warranty shall be limited only to the original buyer for a period of care. It is recommended that the products must be inspected prior to installation and our liability will be limited to the extent of the cost of the products only.

THIS IS FOR SAMPLE PURPOSE ONLY. IT IS NOT FOR SALE.

Do not use chemicals for cleaning

Extra care required in vertical pasting of laminates sheet as there is possibility of bubbles due to lack of uniform pressure

Avoid direct sunlight/continuous light. These may cause color fading

Cracking at corners and around cuts may be caused by improper conditioning, improper bonding, and poor planning. Avoid all these to prevent cracking at corners.

ACHIEVEMENTS :

MANAGEMENT SYSTEM CERTIFICATION
