WE SHAPE

PERFECTION

At MAKERS, we don't merely produce laminates — we engineer premium surfaces that marry aesthetic richness with unwavering durability. Each HPL sheet emerges from a robust, tightly controlled process rooted in innovation, precision, and reliability.

Founded in 2016 under Ajmer Industries LLP, MAKERS was built to push boundaries in decorative laminates. Our mass-customization capabilities and cutting-edge production infrastructure allow us to meet diverse design needs while ensuring meticulous quality control from raw materials to final finishes.

We leverage ISI-certified 100% phenolic resin papers and adhere strictly to ISO 9001 (quality), ISO 14001 (environment), and ISO 18001 (health & safety) standards — delivering consistent manufacturing excellence every time. Our raw materials, sourced from Europe and Asia, are blended via state-of-the-art technology and in-house expertise for global standards efficiency.

Our product range is diverse — from wood, stone, and fabric textures to trendy gloss, matte, abstract, digital prints, and antibacterial safe-touch surfaces tailored for wellness-oriented spaces. Each collection combines striking design with functional benefits: scratch-resistant, stain-proof, disinfectant-ready, fingerprint-free, UV and heat-resistant, moisture-resistant, and dimensionally stable for reliable performance.

Behind every design lies a rigorous system — from concept development to climate-stress testing, deep-layer bonding, uniform sanding, and consistent lamination thickness, culminating in visually stunning yet practical surfaces. Our after-sales service is equally purposeful. With a well-structured warranty, customer support helpline, and guidance on installation and maintenance, MAKERS ensures long-term satisfaction, project reliability, and customer trust.

Quality engineered. Design inspired. Service assured. That is the MAKERS promise — surfaces that not only beautify, but endure.

EXPERIENCE CENTRE

Choose an interior space, pick a layout, and try different laminates to see how they look.
